DETAILED ACTION

Drawings

1. The drawings filed on 3-10-04 are acceptable.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Diane E. Burke on 11-28-05.

The application has been amended as follows:

In claim 5, line 1, "claims 1 to 4" has been replaced with --claim 1--.

The changes has been made to eliminate improper multiple dependent claims.

Allowable Subject Matter

3. Claims 1-5 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: It is agreed that the prior art of record fail to teach or suggest, alone or in combination, the limitation: "wherein at least one of the turning systems is made in the form of a sequence of fragments of solenoid, which are joined with each other in such a manner that they form a working channel for the charged particle beam, which accomplish a 180⁰ or less angle turn, the sequence of solenoid fragments being positioned about the working channel" as claimed in claim

1. It is for this reason in combination with all the other limitations in claim 1, that claims 1-5 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
